Work Experiences

PT Sumber Alfaria Trijaya, Tbk. - Tangerang, Indonesia   February 2024 – June 2024

Data Mining Specialist (AKSESMU)

This is an MSIB Batch 6 program. In my position I worked on various projects such as creating a data request website, Market Basket Analysis, and Productivity Items. For daily activities, I help pull data using SQL.

- Developing a website for use by AKSESMU employees in departments and work areas in the Business Intelligent division.
- Analyze products that will be recommended on the platform.
- Helps pull data requested by departments/areas using SQL.
- HTML, CSS, JavaScript, PHP, TailwindCSS, Laravel, SQL, Oracle, and Postgre SQL.

Dian Nuswantoro University - Semarang, Indonesia   September 2023 – February 2024

Web Developer(FrontEnd) - Bengkel Koding.

Is an Internal MBKM of the Faculty of Computer Science. Tasked with creating a coding workshop website so that later students who take coding workshop courses can access courses such as Dicoding Indonesia.

- Develop a website for use by Students taking coding workshop courses/credits at Dian Nuswantoro University.
- Play a role in assisting 6+ students who take the course to see their progress.
- HTML, CSS, JavaScript, PHP, TailwindCSS, Laravel, React JS.

Dian Nuswantoro University - Semarang, Indonesia   September 2023 - February 2024

Computer Basics Lab Assistant

- Lecturer assistance in the computer lab totaling 30+ students, helping students learn programming language courses and computing basics.
- Create an intensive class event and I am the mentor for the intensive class.
- C++, Microsoft Office (Word, Excel, PPT).

PT Aruka Bina Caraka - Jakarta, Indonesia   April 2018 - August 2018

Network Technician - Intern/Magang

- Setting the IP address and visiting each client to check the WiFi network every week 3-4 times.
- Communicate with clients directly when internet/wifi network problems occur.
- Mikrotik, winbox.
